Set Up Your Computer First

Before you set up and operate your Dell™ computer, read and follow the safety instructions in your Owner’s Manual.

Set Up Your Computer First

1. Connect a keyboard and a mouse
2. Connect the monitor to the computer
3. If you have a modem, connect a telephone cable to either of the modem connectors (not all modems have two connectors)
4. If you have a network device, connect a network cable (not included) to the network connector
5. Connect the computer and monitor to electrical outlets
6. Turn on the computer and monitor

Continued
Set Up Other Devices Last

Connect other devices according to their documentation.

Help and Support

See your Owner’s Manual for additional setup information, including how to connect a printer.

To access support and educational tools, double-click the Dell Solution Center icon on the Microsoft® Windows® desktop. You can also access Dell through support.dell.com.

For additional information about your computer, click the Start button and click Help and Support:

• To access the Tell Me How help file, click User and system guides, click User’s guides, and then click Tell Me How.
• For help with the Windows operating system, click Microsoft® Windows XP Tips.

To access the Tell Me How help file, click User and system guides, click User’s guides, and then click Tell Me How.
