Setting Up Your Monitor

1. Attach the monitor to the stand.
   - Place the monitor on the stand. Adjust the monitor to the desired height and angle.
   - Connect the monitor to your computer using the supplied cable(s).
   - Turn on your computer and monitor.

2. Connect the monitor using EITHER the white DVI cable OR the blue VGA cable. (DO NOT connect both cables.)
   - Route the cables to avoid placing them under the monitor or other heavy objects.
   - Check the monitor's manual for any additional instructions.

3. Connect the power cord firmly to the monitor and the electrical outlet.
   - Ensure the power cord is connected securely.
   - The monitor will power on automatically.

4. Adjust the monitor.
   - Tilt and swivel the monitor to the desired position.
   - Position the monitor at a comfortable viewing distance.

5. Turn on the monitor.
   - Press the power button to turn on the monitor.

6. If nothing appears on screen, press the Input Select Button.
   - If no input is selected, press the Input Select button to change the input source.
   - If the problem persists, refer to the monitor's user manual for further assistance.
