Setting Up Your Monitor

1. Attach the monitor to the stand.
   - Place the monitor on the stand.
   - Adjust the monitor to the desired position.

2. Connect the monitor using EITHER the white DVI cable OR the blue VGA cable.
   - Connect the monitor using one of the provided cables (DVI or VGA).
   - Ensure the cables are securely connected to both the monitor and the computer.

3. Connect the power cord firmly to the monitor and the electrical outlet.
   - Plug the power cord into the monitor and the electrical outlet.

4. Adjust the monitor.
   - Adjust the monitor to the desired angle.

5. Turn on the monitor.
   - Press the power button to turn on the monitor.

6. If nothing appears on screen, press the Input Select Button.
   - If the display is not working, press the Input Select Button repeatedly until a display appears.
