Setting Up Your Monitor

CAUTION:
Before setting up your Dell monitor, see the safety instructions that shipped with your monitor.

Dell™ U2711 Flat Panel Monitor

1 Verify the contents of the box

2 Connect the monitor using ONLY ONE of the following cables: the white DVI cable or the blue VGA cable

NOTE: It is recommended that you connect the monitor using the white DVI cable for better performance.

CAUTION: For best performance, connect only one cable: the white DVI cable or the blue VGA cable.

3 Connect the USB cable to enable the USB hub and the card reader

4 Connect the power cable

5 Press the power button

6 If nothing appears on the screen, touch the Input Source Select button

For more information, see the user's guide.
