Setting Up Your Dell WM324 Wireless Mouse

1. Install one AA battery in your mouse.

2. Connect the USB receiver to the computer.

3. Slide the power switch to turn on the mouse.

If your mouse is not working, see the Troubleshooting section.
Unifying Pairing Features

The USB Unifying receiver is a wireless receiver that can stay plugged into your computer’s USB port, allowing you to easily connect your wireless mouse and keyboard to your computer, and up to four additional unifying-compatible wireless devices at the same time.

To begin using your receiver, ensure your computer has the software installed. Unifying software may be pre-installed on your computer. The software can also be downloaded from dell.com/support/Unifying.
