What's in the box

Features

Charge the power companion before first use

Connect the power companion and press the power button to start charging your laptop

1. Power connector

2. Power button

3. Power status light

4. Power port

Attach the Ferrite Core

NOTE: For more information, see User's Guide at dell.com/support/manuals.

Connect the power companion through a USB cable to start charging your device

NOTE: The power adapter and USB cable are not shipped with the power companion. Use the power adapter of your Dell computer.

1. Open the cover and insert the USB cable into the designated port and connect the power adapter to the power companion.

2. Ensure the power adapter and USB cable are securely connected to the power companion and the power adapter.

Check the power companion battery status
