Dell Peripheral Manager

Dell Peripheral Manager software enables you to perform the following:

- Assign program shortcuts to device programmable buttons or keys through the Action tab.
- View device information such as firmware version and battery status through the Info tab.
- Upgrade the latest firmware updates on your devices.
- Pair additional devices through the RF USB dongle or directly to your computer through Bluetooth.

For more information, see *Dell Peripheral Manager User’s Guide* on the product page at [www.dell.com/support](http://www.dell.com/support).
Setting up your wireless mouse

Installing the battery

1. Locate the slot on the side of the mouse cover. Using your fingertip, pry open the cover.

2. Remove the USB dongle from its compartment.

3. Install the AA battery into the battery compartment.
4. Replace the mouse cover.

5. Slide the power switch down to turn on the mouse.

**NOTE:** Ensure that the distance between your computer and mouse is within ten meters.
Pairing your wireless mouse

Your Dell wireless mouse can be paired with devices using USB and Bluetooth. You can pair and switch between a laptop, desktop, and a compatible mobile device.

Pairing with a USB dongle

⚠️ NOTE: You can connect a device to your wireless mouse using the Dell Universal pairing.

1. Install the Dell Universal USB dongle to the USB port on your computer.

⚠️ NOTE: The RF device is pre-paired in the factory already.

2. The connection-mode light (18) on the mouse turns on to indicate the Dell Universal pairing, and then turns off.

3. The mouse is paired with your USB device.
Pairing your mouse using Bluetooth

You can connect up to two devices with your wireless mouse using Bluetooth.

1. Press the connection-mode button twice on your mouse (within 3 seconds) until the connection-mode light ($2\,\text{§}$) turns on indicating that the second-bluetooth connection is selected.

2. The connection-mode light ($2\,\text{§}$) blinks for 3 minutes, indicating your mouse is in the pairing mode.

3. Pair your mouse with your Bluetooth-enabled computer.
   a. In Windows Search, type Bluetooth.
   b. Click Bluetooth and other devices settings. The Settings window appears.
   c. Click Bluetooth & other devices. Ensure that the Bluetooth is turned on.
   d. From the list of devices, click Dell Mouse.
NOTE: If Mouse MS5320W is not listed, ensure that the pairing mode is enabled on the mouse.

4. Confirm that the pairing process on both mouse and device. The second-Bluetooth connection light turns solid white for 3 seconds to confirm the connection is established, and then turns off. After the mouse and a device are paired, they connect automatically when Bluetooth is enabled and they are within the Bluetooth range.
Pairing device three using Bluetooth

**NOTE:** You can connect a third device to your wireless mouse using Bluetooth.

1. Press the connection-mode button twice on your mouse (within 3 seconds) until the connection-mode light (3s) turns on indicating that the third-bluetooth connection is selected.

2. The third-bluetooth connection light (3s) starts blinking to confirm the pairing mode is enabled.

3. Pair your mouse with your Bluetooth enabled computer.
   a. In Windows Search, type **Bluetooth**.
   b. Click **Bluetooth and other devices settings**. The **Settings** window appears.
   c. Click **Bluetooth & other devices**. Ensure that the Bluetooth is turned on.
   d. From the list of devices, click **Dell Mouse**.
NOTE: If Mouse MS5320W is not listed, ensure that the pairing mode is enabled on the mouse.

4. Confirm the pairing process on both mouse and device.
   The third-Bluetooth connection light turns solid white for 3 seconds to confirm the connection is established then dims off. After the mouse and a device are paired, they connect automatically when Bluetooth is enabled and they are within the Bluetooth range.
Setting up your wireless keyboard

1. Remove the battery cover.

2. Install the AA batteries into the battery compartment.

3. Replace the battery cover.
4. Slide the power switch to the right to turn on the keyboard.

![Power Switch]

**NOTE:** Ensure that the distance between your computer and keyboard is within ten meters.
Pairing your wireless keyboard

Your Dell wireless keyboard can be paired with devices using USB and Bluetooth. You can pair and switch between a laptop, desktop, and a compatible mobile device.

Pairing with a USB dongle

NOTE: You can connect a device to your wireless keyboard using the Dell Universal pairing.

1. Install the Dell Universal USB dongle to the USB port on your computer.

NOTE: the RF device is pre-paired in the factory already.

2. The connection-mode light on the keyboard is set to Dell Universal Pairing by default.
3. The keyboard is paired with your USB device.

Pairing your wireless keyboard using Bluetooth

You can connect up to two devices to your wireless keyboard using Bluetooth.

1. Press the connection-mode button twice on your keyboard (within 3 seconds) until the connection-mode light (2) turns on indicating that the second-bluetooth connection is selected.

2. Pair your keyboard with your Bluetooth-enabled computer.
   a. In Windows Search, type Bluetooth.
   b. Click Bluetooth and other devices settings. The Settings window appears.
   c. Click Bluetooth & other devices. Ensure that the Bluetooth is turned on.
   d. From the list of devices, click Dell Keybd.
NOTE: If Dell Mobile Wireless Mouse MS3320W is not listed, ensure that the pairing mode is enabled on the mouse.

3. Confirm the pairing process on both keyboard and device. The second-bluetooth connection light turns solid white for 3 seconds to confirm the connection is established, and then turns off. After the keyboard and a device are paired, they connect automatically when Bluetooth is enabled and they are within the Bluetooth range.
Pairing device three using Bluetooth

**NOTE:** You can connect a third device to your wireless keyboard using Bluetooth.

1. Press the connection-mode button twice on your keyboard (within 3 seconds) until the connection-mode light (3️⃣) turns on indicating that the third-bluetooth connection is selected.

2. Pair your keyboard with your Bluetooth enabled computer.
   a. In Windows Search, type **Bluetooth**.
   b. Click **Bluetooth and other devices settings**. The **Settings** window appears.
   c. Click **Bluetooth & other devices**. Ensure that the Bluetooth is turned on.
   d. From the list of devices, click **Dell Keybd**.

**NOTE:** If Keyboard KB7120W is not listed, press the Bluetooth-pairing button on the keyboard to ensure pairing mode is enabled.
3. Confirm the pairing process on both keyboard and device. The third-bluetooth connection light turns solid white for 3 seconds to confirm the connection is established then turns off. After the keyboard and a device are paired, they connect automatically when Bluetooth is enabled and they are within the Bluetooth range.
Specifications

General

Keyboard model number: KB7120W
Connection type: 2.4 GHz Wireless & Bluetooth dual mode technology
Supported operating systems (2.4 GHz):
- Linux 6.x, Ubuntu, Free DOS
- Chrome and Android
- MAC OS
Supported operating systems (Bluetooth):
- Windows 10/8
- Chrome and Android
- MAC OS

Electrical

Operating voltage: 2.2 V – 3.0 V
Battery required: Two AA alkaline
Radio transmission: Bi-directional communication
Battery required Range: Up to 10 m

Physical characteristics

Weight (without battery): 500.90 g
Dimensions:
- Length: 122 mm (4.80 in.)
- Width: 363.40 mm (14.31 in.)
- Height: 35.52 mm (1.40 in.)

Environmental

Temperature:
- Operating: 0°C to 40°C (32°F to 104°F)
- Storage: -40°C to 65°C (-40°F to 149°F)
Storage humidity: 95% maximum relative humidity; non-condensing

<tr>
<th>Problems</th>
<th>Possible causes</th>
<th>Possible solutions</th>
</tr>
</thead>
</table>
| Unable to use the mouse/keyboard | The white LED indicator at top of the mouse does not light up when the mouse is turned on | **1.** Check if the battery is inserted correctly.  
   Battery “+” and “-” ends should follow those indicated on the battery compartment label.  
   **2.** Check the battery level.  
   - If the mouse uses a rechargeable battery, ensure that the battery is fully charged.  
   - If the battery is exhausted, replace it with a new one.  
   **3.** Turn the mouse/keyboard off, and then turn on again.  
   Check if the battery status light is flashing amber, indicating that the battery power is low. If the battery is fully depleted, the battery-status light will not turn on.  
   **4.** Ensure that the USB dongle is directly connected to your computer.  
   Avoid using the port replicators, USB hubs, and so on.  
   **5.** Change the USB port.  
   Insert the USB dongle into another USB port on your computer. |

Statutory information

Warranty

Limited warranty and return policies

Dell-branded products carry three-year limited hardware warranty. If purchased together with a Dell system, it will follow the system warranty.

For U.S. customers:

This purchase and your use of this product are subject to Dell’s end user agreement, which you can find at Dell.com/terms. This document contains a binding arbitration clause.

For European, Middle Eastern and African customers:

Dell-branded products that are sold and used are subject to applicable national consumer legal rights, the terms of any retailer sale agreement that you have entered into (which will apply between you and the retailer) and Dell’s end user contract terms.

Dell may also provide an additional hardware warranty—full details of the Dell end user contract and warranty terms can be found by going to Dell.com, selecting your country from the list at the bottom of the “home” page and then clicking the “terms and conditions” link for the end user terms or the “support” link for the warranty terms.

For non-U.S. customers:

Dell-branded products that are sold and used are subject to applicable national consumer legal rights, the terms of any retailer sale agreement that you have entered into (which will apply between you and the retailer) and Dell’s warranty terms. Dell may also provide an additional hardware warranty—full details of Dell’s warranty terms can be found by going to Dell.com, selecting your country from the list at the bottom of the “home” page and then clicking the “terms and conditions” link or the “support” link for the warranty terms.
