Notes, Cautions, and Warnings

NOTE: A NOTE indicates important information that helps you make better use of your computer.

CAUTION: A CAUTION indicates potential damage to hardware or loss of data if instructions are not followed.

WARNING: A WARNING indicates a potential for property damage, personal injury, or death.

Information in this publication is subject to change without notice.

Before Working Inside Your Computer

Use the following safety guidelines to help protect your computer from potential damage and to help to ensure your personal safety. Unless otherwise noted, each procedure included in this document assumes that the following conditions exist:

• You have performed the steps in Working on Your Computer.
• You have read the safety information that shipped with your computer.
• A component can be replaced or—if purchased separately—installed by performing the removal procedure in reverse order.

⚠️ WARNING: Before working inside your computer, read the safety information that shipped with your computer. For additional safety best practices information, see the Regulatory Compliance Homepage at www.dell.com/regulatory_compliance.

⚠️ CAUTION: Many repairs may only be done by a certified service technician. You should only perform troubleshooting and simple repairs as authorized in your product documentation, or as directed by the online or telephone service and support team. Damage due to servicing that is not authorized by Dell is not covered by your warranty. Read and follow the safety instructions that came with the product.

⚠️ CAUTION: To avoid electrostatic discharge, ground yourself by using a wrist grounding strap or by periodically touching an unpainted metal surface, such as a connector on the back of the computer.

⚠️ CAUTION: Handle components and cards with care. Do not touch the components or contacts on a card. Hold a card by its edges or by its metal mounting bracket. Hold a component such as a processor by its edges, not by its pins.

⚠️ CAUTION: When you disconnect a cable, pull on its connector or on its pull-tab, not on the cable itself. Some cables have connectors with locking tabs; if you are disconnecting this type of cable, press in on the locking tabs before you disconnect the cable. As you pull connectors apart, keep them evenly aligned to avoid bending any connector pins. Also, before you connect a cable, ensure that both connectors are correctly oriented and aligned.
NOTE: The color of your computer and certain components may appear differently than shown in this document.

To avoid damaging your computer, perform the following steps before you begin working inside the computer.

1. Ensure that your work surface is flat and clean to prevent the computer cover from being scratched.
2. Turn off your computer (see Turning Off Your Computer).
3. If the computer is connected to a docking device (docked) such as the optional Media Base or Battery Slice, undock it.

CAUTION: To disconnect a network cable, first unplug the cable from your computer and then unplug the cable from the network device.
4. Disconnect all network cables from the computer.
5. Disconnect your computer and all attached devices from their electrical outlets.
6. Close the display and turn the computer upside-down on a flat work surface.

NOTE: To avoid damaging the system board, you must remove the main battery before you service the computer.
7. Remove the main battery.
8. Turn the computer top-side up.
9. Open the display.
10. Press the power button to ground the system board.

CAUTION: To guard against electrical shock, always unplug your computer from the electrical outlet before opening the display.

CAUTION: Before touching anything inside your computer, ground yourself by touching an unpainted metal surface, such as the metal at the back of the computer. While you work, periodically touch an unpainted metal surface to dissipate static electricity, which could harm internal components.
11. Remove any installed ExpressCards or Smart Cards from the appropriate slots.

Recommended Tools

The procedures in this document may require the following tools:

- Small flat-blade screwdriver
• #0 Phillips screwdriver
• #1 Phillips screwdriver
• Small plastic scribe
• Flash BIOS update program CD

Turning Off Your Computer

⚠️ CAUTION: To avoid losing data, save and close all open files and exit all open programs before you turn off your computer.

1. Shut down the operating system:
   - In Windows Vista:
     Click **Start**, then click the arrow in the lower-right corner of the **Start** menu as shown below, and then click **Shut Down**.
   - In Windows XP:
     Click **Start** → **Turn Off Computer** → **Turn Off**. The computer turns off after the operating system shutdown process is complete.

2. Ensure that the computer and all attached devices are turned off. If your computer and attached devices did not automatically turn off when you shut down your operating system, press and hold the power button for about 4 seconds to turn them off.

After Working Inside Your Computer

After you complete any replacement procedure, ensure you connect any external devices, cards, and cables before turning on your computer.

⚠️ CAUTION: To avoid damage to the computer, use only the battery designed for this particular Dell computer. Do not use batteries designed for other Dell computers.

1. Connect any external devices, such as a port replicator, battery slice, or media base, and replace any cards, such as an ExpressCard.
2. Connect any telephone or network cables to your computer.
△ **CAUTION:** To connect a network cable, first plug the cable into the network device and then plug it into the computer.

3. Replace the battery.
4. Connect your computer and all attached devices to their electrical outlets.
5. Turn on your computer.
Removing The ATG Handle

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the screws that secure the ATG handle to the computer.
3. Remove the ATG handle out of the computer.
Installing The ATG Handle

1. Place the ATG handle and tighten the screws that secure it to the computer.
2. Follow the procedures in *After working inside your computer.*
ATG Port Cover

Removing the ATG Port Cover

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the screws on the right ATG Port Cover.
3. Remove the right ATG port cover.
4. Remove the screws on the left ATG port cover.
5. Remove the left ATG Port Cover.

Installing The ATG Port Cover

1. Place the ATG Port Covers and tighten the screws that secure it to the computer.
2. Follow the procedures in *After working inside your computer.*
Modem Connector Plug

Removing the Modem Connector Plug

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *battery.*
3. Pop open the rubber cover.
4. Identify the pin hole.

5. Insert a pin into the hole and pull the pin upwards to release the latch cover.
6. Remove the cover.

Installing the Modem Connector Plug

1. Place the modem cover.
2. Identify the pin hole and insert a pin into the hole and pull the pin to lock the cover.
3. Lock the rubber cover.
4. Install the Battery.
5. Follow the procedures in After Working Inside Your Computer.
ExpressCard

Removing the ExpressCard

1. Follow the procedures in *Before Working On Your Computer.*
2. Press in on the ExpressCard to release it from the computer.
3. Slide the ExpressCard out of the computer.

Installing the ExpressCard

1. Slide the ExpressCard into its slot until it clicks into place.
2. Follow the procedures in *After working inside your computer.*
Battery

Removing the Battery

1. Follow the procedures in *Before Working On Your Computer*.
2. Slide the battery latches toward the unlock position.
3. Slide the battery out of the computer and remove it.
Installing the Battery

1. Slide the battery into its slot until it clicks into place.
2. Follow the procedures in *After working inside your computer*. 
Removing the Subscriber Identity Module (SIM) Card

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *Battery.*
3. Insert the SIM card into the slot.

4. Remove the SIM card from the system.
Installing the Subscriber Identity Module (SIM) Card

1. Slide the SIM card into its slot.
2. Install the Battery.
3. Follow the procedures in *After Working Inside Your Computer*. 
Secure Digital (SD) Card

Removing the Secure Digital (SD) Card

1. Follow the procedures in Before Working On Your Computer.
2. Press in on the SD card to release the SD card from the computer.
3. Slide the SD card out of the computer.

Installing the Secure Digital (SD) Card

1. Slide the Secure Digital (SD) card into its slot until it clicks into place.
2. Follow the procedures in After working inside your computer.
Base Cover

Removing the Base Cover

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery.*
5. Remove the *SD Card.*
6. Remove the screws that secure the base cover to the computer.

7. Lift the base cover up and away from the computer.
Installing the Base Cover

1. Place the base cover to align the screw holes correctly with the computer.
2. Tighten the screws that secure the base cover to the computer.
3. Install the Secure Digital (SD) Card.
4. Install the Battery.
5. Install the ATG Port Cover (only for E6420 ATG systems).
6. Install the ATG Handle (only for E6420 ATG systems).
7. Follow the procedures in After Working Inside Your Computer.
Hard Drive

Removing the Hard Drive

1. Follow the procedures in *Before Working On Your Computer*.
2. Remove the *Battery*.
3. Remove the screws that secure the hard drive to the computer.
4. Slide and remove the hard drive out of the computer.
5. Remove the screw that secures the hard drive caddy to the hard drive.
6. Pull and remove the hard drive caddy away from the hard drive.

Installing the Hard Drive

1. Attach the hard drive caddy to the hard drive.
2. Tighten the screw to secure the hard-drive caddy to the hard drive.
3. Slide the hard drive into the computer.
4. Replace and tighten the screws that secure the hard drive to the computer.
5. Install the *Battery*.
6. Follow the procedures in *After working inside your computer*.
Optical Drive

Removing The Optical Drive

1. Follow the procedures in *Before Working On Your Computer*.
2. Remove the *Battery*.
3. Push in the drive latch into the slot.
4. Pull the optical drive using the drive latch.
5. Pull the optical drive door from one side to release it.
6. Pull the other side of the optical drive door to release it completely from the optical drive.

7. Remove the screw that secures the drive latch to the optical drive.

8. Remove the drive latch from the optical drive.
9. Remove the screws that secures the drive latch bracket to the optical drive.

10. Remove the drive latch bracket from the optical drive.
Installing the Optical Drive

1. Insert the drive latch bracket into the optical drive.
2. Tighten the screws that secure the drive latch bracket to the optical drive.
3. Insert the drive latch into the optical drive.
4. Tighten the screw that secures the drive latch to the optical drive.
5. Push one side of the optical drive door to insert it completely into the optical drive.
6. Pull the optical drive door from one side to insert it from the side.
7. Insert the optical drive using the drive latch.
8. Place the drive latch into the slot.
9. Install the Battery.
10. Follow the procedures in After working inside your computer.
Memory Card

Removing the Memory Card

1. Follow the procedures in *Before Working On Your Computer*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *battery*.
5. Remove the *Secure Digital (SD) card*.
6. Remove the *base cover*.
7. Use your fingertips to spread apart the securing clips on each end of the memory module connector until the memory module pops up.

8. Remove the memory module from its connector on the system board by drawing the module from the system board at a 45-degree angle.
Installing the Memory Card

1. Push the memory module into the memory slot.
2. Press the clips to secure the memory module to the system board.
3. Install the Base Cover.
4. Install the Secure Digital (SD) card.
5. Install the Battery.
6. Install the ATG Port Cover (only for E6420 ATG systems).
7. Install the ATG Handle (only for E6420 ATG systems).
8. Follow the procedures in After Working Inside Your Computer.
Removing the Wireless Local Area Network (WLAN) Card

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *battery.*
5. Remove the *Secure Digital (SD) card.*
6. Remove the *base cover.*
7. Disconnect the antenna cables from the WLAN card.
8. Remove the screw that secures the WLAN card to the computer.
9. Slide and remove the WLAN card out from its slot on the system board.
Installing the Wireless Local Area Network (WLAN) Card

1. Insert the WLAN card into its connector at a 45–degree angle.
2. Replace and tighten the screw that secures the WLAN card to the computer.
3. Connect the antenna cables to their respective connectors marked on the WLAN card.
4. Install the *ATG Port Cover* (only for E6420 ATG systems).
5. Install the *ATG Handle* (only for E6420 ATG systems).
6. Install the *base cover*.
7. Install the *Secure Digital (SD) card*.
8. Install the *battery*.
9. Follow the procedures in *After Working Inside Your Computer*. 
Wireless Wide Area Network (WWAN) Card

Removing the Wireless Wide Area Network (WWAN) Card

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery.*
5. Remove the *SD Card.*
6. Remove the *Base Cover.*
7. Disconnect the antenna cables from the WWAN card.
8. Remove the screw that secures the WWAN card to the computer.
9. Slide the WWAN card from its connector and remove it from the computer.
Installing the Wireless Wide Area Network (WWAN) Card

1. Insert the WWAN card into its connector at a 45–degree angle.
2. Replace and tighten the screw that secures the WWAN card to the computer.
3. Connect the antenna cables to their respective connectors marked on the WWAN card.
4. Install the *Base Cover*.
5. Install the *Secure Digital (SD) Card*.
6. Install the *Battery*.
7. Install the *ATG Port Cover* (only for E6420 ATG systems).
8. Install the *ATG Handle* (only for E6420 ATG systems).
9. Follow the procedures in *After Working Inside Your Computer*.
Removing the Coin-Cell Battery

1. Follow the procedures in *Before Working on Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery.*
5. Remove the *SD Card.*
6. Remove the *Base Cover.*
7. Disconnect any antennas routed over the coin cell battery.

8. Disconnect the coin-cell battery cable from the system board.
9. Release and remove the coin-cell battery from the computer.

Installing the Coin-Cell Battery

1. Place the coin-cell battery in its location.
2. Connect the coin-cell battery cable to the system board.
3. Connect any antennas that were routed over the coin cell battery.
4. Install the Base Cover.
5. Install the Secure Digital (SD) card.
6. Install the Battery.
7. Install the ATG Port Cover (only for E6420 ATG systems).
8. Install the ATG Handle (only for E6420 ATG systems).
Heat Sink

Removing The Heat Sink

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery.*
5. Remove the *SD Card.*
6. Remove the *Base Cover.*
7. Disconnect the heat sink assembly cable.
8. Loosen the screws securing the heat sink.
9. Remove the heat sink assembly from the system.

10. Rotate the processor cam lock in a counter-clockwise direction.
11. Remove the processor from the system.

Installing The Heat Sink

1. Insert the processor back into the system.
2. Rotate the processor cam lock in a clockwise direction.
3. Place the heat sink assembly into the system.
4. Tighten the four screws securing the heat sink.
5. Connect the heat sink assembly cable.
6. Install the Base Cover.
7. Install the Secure Digital (SD) Card.
8. Install the Battery.
9. Install the ATG Port Cover (only for E6420 ATG systems).
10. Install the ATG Handle (only for E6420 ATG systems).
11. Follow the procedures in After Working Inside Your Computer.
Bluetooth Card

Removing the Bluetooth Card

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery*.
5. Remove the *Secure Digital Card*.
6. Remove the *Base Cover*.
7. Remove the *Hard Drive*.
8. Remove the screw that secures the bluetooth card to the computer
9. Remove the bluetooth card from the holder.
10. Disconnect the bluetooth cable.
Installing the Bluetooth Card

1. Connect the bluetooth cable to the bluetooth card.
2. Replace and tighten the screw to secure the bluetooth card to the computer.
3. Install the Hard Drive.
4. Install the Base Cover.
5. Install the SD Card.
6. Install the Battery.
7. Install the ATG Port Cover (only for E6420 ATG systems).
8. Install the ATG Handle (only for E6420 ATG systems).
Removing the Keyboard Trim

1. Follow the procedures in *Before Working On Your Computer.*

2. Using a plastic scribe, pry the keyboard trim from the top edge to release it from the computer.

3. Pry along the sides.

4. Release the tabs part of the trim.
5. Gently lift the keyboard trim to release it from the computer.

Installing the Keyboard Trim

1. Align the keyboard trim with the keyboard and gently snap it into place.
2. Follow the procedures in *After Working Inside Your Computer*. 
Removing the Keyboard

1. Follow the procedures in *Before Working On Your Computer*.
2. Remove the *Battery*.
3. Remove the *Keyboard Trim*.
4. Remove the screws that secure the keyboard at the bottom of the computer.
5. Remove the screws that secure the keyboard on the system.
6. Carefully flip the keyboard over and lay it toward the display.

7. Disconnect the keyboard cable from the system board.

8. Remove the keyboard from the computer.
9. Remove the tape securing the keyboard cable from the keyboard.

10. Unlock the cable holder.
11. Disconnect and remove the keyboard cable from the keyboard.

**Installing the Keyboard**

1. Connect the keyboard cable and secure it to the keyboard using the tape.
2. Connect the keyboard cable to its connector on the system board.
3. Replace and tighten the screws that secure the keyboard to the computer.
4. Install the *Battery*.
5. Install the *Keyboard Trim*
6. Follow the procedures in *After Working Inside Your Computer*. 
Modem Card

Removing the Modem Card

1. Follow the procedures in *Before Working On Your Computer*.
2. Remove the *Battery*.
3. Remove the *Keyboard Trim*.
4. Remove the *Keyboard*.
5. Remove the screw securing the modem card to the computer.

6. Pull out the tab from underneath the palmrest.
7. Lift the tab to disconnect the holder.

8. Rotate the modem card at an angle.

9. Remove modem card from the slot away from the computer.
10. Disconnect the modem cable from the modem card and remove it from the system.

Installing the Modem Card

1. Connect the modem cable to the modem card on the system board.
2. Place the modem card in its slot in the computer.
3. Tighten the screw securing the modem card to the system.
4. Install the Keyboard Trim.
5. Install the Keyboard.
6. Install the Battery.
7. Follow the procedures in After working inside your computer.
Removing the Palm Rest Assembly

1. Follow the procedures in *Before Working On Your Computer*.
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery*.
5. Remove the *SD Card*.
6. Remove the *Base Cover*.
7. Remove the *Optical Drive*.
8. Remove the *Hard Drive*.
9. Remove the *WWAN Card*.
10. Remove the *Bluetooth Card*.
11. Remove the *Keyboard Trim*.
12. Remove the *Keyboard*.
13. Remove the screws that secure the palm rest assembly to the computer.

14. Turn the system and remove the screws that secure the palm rest assembly to the computer.
15. Release and disconnect the LED, smart card, touchpad, RFID, and ExpressCard cable from the system board.

16. Using a plastic scribe, gently pry out the top right corner of the palm rest and run along the scribe to the right side of the palm rest to release the snaps.
17. Continue to use the scribe to run along the top and left side of the palm rest until all snaps are released.

18. Lift the top side at a 25–degree angle, pull the palm rest towards the screen, and remove it from the computer.
Installing the Palm Rest Assembly

1. Align the palm rest assembly with the computer and gently snap it into place.
2. Replace and tighten the screws that secure the palm rest assembly to the system board.
3. Connect the LED, smart card, touchpad, RFID, and ExpressCard cables to the system board.
4. Replace and tighten the screws that secure the palm rest assembly to the computer.
5. Install the Keyboard.
6. Install the Keyboard Trim.
7. Install the Bluetooth Card.
8. Install the WWAN Card.
9. Install the Hard Drive.
10. Install the Optical Drive.
11. Install the Base Cover.
12. Install the Secure Digital (SD) Card.
13. Install the Battery.
14. Install the ATG Port Cover (only for E6420 ATG systems).
15. Install the ATG Handle (only for E6420 ATG systems).
16. Follow the procedures in After Working Inside Your Computer.
Removing the Smart Card

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery.*
5. Remove the *SD Card.*
6. Remove the *Base Cover.*
7. Remove the *Hard Drive.*
8. Remove the *Keyboard Trim.*
9. Remove the *Keyboard.*
10. Remove the *Palmrest Assembly.*
11. Remove the Smart Card Reader cable from the system board.
12. Remove the screws securing the Smart Card Reader to the computer.
13. Remove the Smart Card Reader from the computer.
Installing the Smart Card

1. Replace the Smart Card Reader in the computer in its original position.
2. Tighten the screws of the Smart Card Reader.
3. Connect the Smart Card Reader cable on the system board.
4. Install the **Palmrest Assembly**.
5. Install the **Keyboard**.
6. Install the **Keyboard Trim**.
7. Install the **Hard Drive**.
8. Install the **Base Cover**.
9. Install the **SD Card**.
10. Install the **Battery**.
11. Install the **ATG Port Cover** (only for E6420 ATG systems).
12. Install the **ATG Handle** (only for E6420 ATG systems).
13. Follow the procedures in **After Working Inside Your Computer**.
Removing The Media Board

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery.*
5. Remove the *SD Card.*
6. Remove the *Optical Drive.*
7. Remove the *Base Cover.*
8. Remove the *Hard Drive.*
9. Remove the *WWAN Card.*
10. Remove the *Bluetooth Card.*
11. Remove the *Keyboard Trim.*
12. Remove the *Keyboard.*
13. Remove the *Palmrest Assembly.*
14. Disconnect the media board cable from the system board.
15. Remove the screws that secure the media board to the computer.
16. Remove the media board from the computer.
Installing the Media Board

1. Align the media board to its original position on the computer.
2. Replace and tighten the screws that secure the media board to the computer.
3. Connect the media board cable to the system board.
4. Install the ATG Handle (for E6420 ATG systems only).
5. Install the ATG Port Cover (for E6420 ATG systems only).
6. Install the *Palmrest Assembly*.
7. Install the *Keyboard*.
8. Install the *Keyboard Trim*.
9. Install the *WWAN Card*.
10. Install the *Bluetooth Card*.
11. Install the *Hard Drive*.
12. Install the *Optical Drive*.
13. Install the *Base Cover*.
14. Install the *SD Card*.
15. Install the *Battery*.
16. Install the *ATG Port Cover* (only for E6420 ATG systems).
17. Install the *ATG Handle* (only for E6420 ATG systems).
18. Follow the procedures in *After Working Inside Your Computer*. 
ExpressCard Cage

Removing the ExpressCard Cage

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery.*
5. Remove the *SD Card.*
6. Remove the *Base Cover.*
7. Remove the *Optical Drive.*
8. Remove the *Hard Drive.*
9. Remove the *Bluetooth Card*
10. Remove the *Keyboard Trim.*
11. Remove the *Keyboard.*
12. Remove the *Palmrest Assembly.*
13. Remove the screws securing the ExpressCard cage to the computer.

14. Lift the ExpressCard slot to a 45–degree angle and remove the slot.
Installing the ExpressCard Cage

1. Align the ExpressCard cage into its slot.
2. Replace and tighten the screws securing the ExpressCard cage to the computer.
3. Install the **Palm rest Assembly**.
4. Install the **Keyboard**.
5. Install the **Keyboard Trim**.
6. Install the **Bluetooth Card**.
7. Install the **Hard Drive**.
8. Install the **Optical Drive**.
9. Install the **Base Cover**.
10. Install the **Secure Digital (SD) Card**.
11. Install the **Battery**.
12. Install the **ATG Port Cover** (only for E6420 ATG systems).
13. Install the **ATG Handle** (only for E6420 ATG systems).
14. Follow the procedures in *After working inside your computer*. 

---

78
Removing the System Board

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery.*
5. Remove the *Secure Digital Card.*
6. Remove the *Base Cover.*
7. Remove the *ExpressCard.*
8. Remove the *Optical Drive.*
9. Remove the *Memory.*
10. Remove the *Hard Drive.*
11. Remove the *WLAN Card.*
12. Remove the *WWAN Card.*
13. Remove the *Coin Cell Battery.*
14. Remove the *Heat Sink and Processor.*
15. Remove the *Bluetooth Card.*
16. Remove the *Keyboard Trim.*
17. Remove the *Keyboard.*
18. Remove the *Modem Card.*
19. Remove the *Palmrest Assembly.*
20. Remove the *ExpressCard Cage.*
21. Disconnect and release the speaker cables from the system board.
22. Remove the screws from the video cable holder.

23. Remove the video cable holder.
24. Disconnect the video camera and LED cables from the system board.

25. Remove the screw that secures the system board to the computer.

26. Flip and remove the screws from the system board.
27. Remove the Smart Card reader cable, Media Board cable, and DC-in Cable.

28. Disconnect the motherboard from the IO Board.
29. Slide to unlock system board from the port connectors.

30. Remove the system board.
Installing the System Board

1. Align the system board into its original position on the computer.
2. Connect the system board to the I/O board.
3. Connect the Smart Card reader cable, Media Board cable, and DC-in Cable to the system board.
4. Replace and tighten the screws that secure the system board to the computer.
5. Route and connect the video camera and LED cables to the system board.
6. Place the video cable holder and tighten the screws securing the video cable holder to the system board.
7. Connect the speaker cable to the system board.
8. Install the *ExpressCard Cage*.
9. Install the *Palmrest Assembly*.
10. Install the *Modem Card*.
11. Install the *Keyboard*.
12. Install the *Keyboard Trim*.
13. Install the *Bluetooth Card*.
14. Install the *Heat Sink and Processor*.
15. Install the *Coin Cell Battery*.
16. Install the *WWAN Card*.
17. Install the *WLAN Card*.
18. Install the *Hard Drive*.
19. Install the *Memory*.
20. Install the *Optical Drive*.
21. Install the *ExpressCard*.
22. Install the *Base Cover*.
23. Install the *SD Card*.
24. Install the *Battery*.
25. Install the *ATG Port Cover* (only for E6420 ATG systems).
26. Install the *ATG Handle* (only for E6420 ATG systems).
27. Follow the procedures in *After Working Inside Your Computer*. 
Removing the Speakers

1. Follow the procedures in *Before Working On Your Computer*.
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery*.
5. Remove the *Secure Digital Card*.
6. Remove the *Base Cover*.
7. Remove the *ExpressCard*.
8. Remove the *Optical Drive*.
9. Remove the *Memory*.
10. Remove the *Hard Drive*.
11. Remove the *WLAN Card*.
12. Remove the *WWAN Card*.
13. Remove the *Coin Cell Battery*.
14. Remove the *Heat Sink and Processor*.
15. Remove the *Bluetooth Card*.
16. Remove the *Keyboard Trim*.
17. Remove the *Keyboard*.
18. Remove the *Modem Card*.
19. Remove the *Palmrest Assembly*.
20. Remove the *ExpressCard Cage*.
21. Remove the *System Board*.
22. Remove the screws from the speaker assembly.
23. Unthread the speaker cable.

24. Remove the speaker from the system.
Installing the Speakers

1. Place the speaker back into the system.
2. Route the speaker cable.
3. Tighten the screws securing the speaker assembly.
4. Install the System Board.
5. Install the ExpressCard Cage.
6. Install the Palmrest Assembly.
7. Install the Modem Card.
8. Install the Keyboard.
9. Install the Keyboard Trim.
10. Install the Bluetooth Card.
11. Install the Heat Sink and Processor.
12. Install the Coin Cell Battery.
13. Install the WWAN Card.
14. Install the WLAN Card.
15. Install the Hard Drive.
16. Install the Memory.
17. Install the Optical Drive.
18. Install the ExpressCard.
19. Install the Base Cover.
20. Install the SD Card.
21. Install the Battery.
22. Install the ATG Port Cover (only for E6420 ATG systems).
23. Install the ATG Handle (only for E6420 ATG systems).
24. Follow the procedures in After Working Inside Your Computer.
Modem Connector

Removing the Modem Connector

1. Follow the procedures in *Before Working On Your Computer*.
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery*.
5. Remove the *Secure Digital Card*.
6. Remove the *Base Cover*.
7. Remove the *Modem Connector Plug*.
8. Remove the *ExpressCard*.
9. Remove the *Optical Drive*.
10. Remove the *Memory*.
11. Remove the *Hard Drive*.
12. Remove the *WLAN Card*.
13. Remove the *WWAN Card*.
14. Remove the *Coin Cell Battery*.
15. Remove the *Heat Sink and Processor*.
16. Remove the *Bluetooth Card*.
17. Remove the *Keyboard Trim*.
18. Remove the *Keyboard*.
19. Remove the *Modem Card*.
20. Remove the *Palmrest Assembly*.
21. Remove the *ExpressCard Cage*.
22. Remove the *System Board*.
23. Unthread the modem cable.
24. Unthread the video and wireless antenna cables.

25. Unthread the modem cable.
26. Pull out the end of the modem-to-motherboard connector.

27. Remove screw from modem cable holder.

28. Remove modem cable holder.
29. Remove the whole modem cable assembly by pulling it out from the base.
Installing the Modem Connector

1. Place the modem cable assembly into the base.
2. Place the modem cable holder.
3. Tighten the screw securing the modem cable holder.
4. Connect the end of the modem-to-motherboard connector.
5. Route the modem cable.
6. Route the video and wireless antenna cables.
7. Install the System Board.
8. Install the ExpressCard Cage
9. Install the Palmrest Assembly.
10. Install the Modem Card.
11. Install the Keyboard.
12. Install the Keyboard Trim.
13. Install the Bluetooth Card.
14. Install the Heat Sink and Processor.
15. Install the Coin Cell Battery.
16. Install the WWAN Card.
17. Install the WLAN Card.
18. Install the Hard Drive.
19. Install the Memory.
20. Install the Optical Drive.
21. Install the ExpressCard.
22. Install the Modem Connector Plug.
23. Install the Base Cover.
24. Install the SD Card.
25. Install the Battery.
26. Install the ATG Port Cover (only for E6420 ATG systems).
27. Install the ATG Handle (only for E6420 ATG systems).
28. Follow the procedures in After Working Inside Your Computer.
Input/Output Panel

Removing the Input/Output (I/O) Board

1. Follow the procedures in *Before Working On Your Computer*.
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery*.
5. Remove the *Secure Digital Card*.
6. Remove the *Base Cover*.
7. Remove the *ExpressCard*.
8. Remove the *Optical Drive*.
9. Remove the *Memory*.
10. Remove the *Hard Drive*.
11. Remove the *WLAN Card*.
12. Remove the *WWAN Card*.
13. Remove the *Coin Cell Battery*.
14. Remove the *Heat Sink and Processor*.
15. Remove the *Bluetooth Card*.
16. Remove the *Keyboard Trim*.
17. Remove the *Keyboard*.
18. Remove the *Modem Card*.
19. Remove the *Palmrest Assembly*.
20. Remove the *ExpressCard Cage*.
21. Remove the screw securing the I/O board to the computer.
22. Remove the I/O board from the computer.
Installing the Input/Output (I/O) Board

1. Replace the I/O board in the computer.
2. Tighten the screw securing the I/O board to the computer.
3. Install the System Board.
4. Install the ExpressCard Cage
5. Install the Palmrest Assembly.
6. Install the Modem Card.
7. Install the Keyboard.
8. Install the Keyboard Trim.
9. Install the Bluetooth Card.
10. Install the Heat Sink and Processor.
11. Install the Coin Cell Battery.
12. Install the WWAN Card.
13. Install the WLAN Card.
15. Install the Memory.
16. Install the Optical Drive.
17. Install the Express Card.
18. Install the Base Cover.
19. Install the SD Card.
20. Install the Battery.
21. Install the ATG Port Cover (only for E6420 ATG systems).
22. Install the ATG Handle (only for E6420 ATG systems).
23. Follow the procedures in After Working Inside Your Computer.
Removing DC-in Port

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery.*
5. Remove the *Secure Digital Card.*
6. Remove the *Base Cover.*
7. Remove the *ExpressCard.*
8. Remove the *Optical Drive.*
9. Remove the *Memory.*
10. Remove the *Hard Drive.*
11. Remove the *WLAN Card.*
12. Remove the *WWAN Card.*
13. Remove the *Coin Cell Battery.*
14. Remove the *Heat Sink and Processor.*
15. Remove the *Bluetooth Card.*
16. Remove the *Keyboard Trim.*
17. Remove the *Keyboard.*
18. Remove the *Modem Card.*
19. Remove the *Palmrest Assembly.*
20. Remove the *ExpressCard Cage.*
21. Remove the *System Board.*
22. Remove the screw securing the DC-in bracket.
23. Remove the DC-in bracket.

24. Remove the DC-in cable from the system.
25. Push in the DC-in trim and remove it from the system.
Installing DC-In Port

1. Push the DC-in trim and place it into the system.
2. Place the DC-in cable into the system.
3. Insert the DC-in bracket.
4. Tighten the screw securing the DC-in bracket.
5. Install the System Board.
6. Install the ExpressCard Cage.
7. Install the Palmrest Assembly.
8. Install the Modem Card.
9. Install the Keyboard.
10. Install the Keyboard Trim.
11. Install the Bluetooth Card.
12. Install the Heat Sink and Processor.
13. Install the Coin Cell Battery.
15. Install the WLAN Card.
16. Install the Hard Drive.
17. Install the Memory.
18. Install the Optical Drive.
19. Install the ExpressCard.
20. Install the Base Cover.
21. Install the SD Card.
22. Install the Battery.
23. Install the ATG Port Cover (only for E6420 ATG systems).
24. Install the ATG Handle (only for E6420 ATG systems).
25. Follow the procedures in After Working Inside Your Computer.
Display Assembly

Removing the Display Assembly

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *ATG Handle* (only for E6420 ATG systems).
3. Remove the *ATG Port Cover* (only for E6420 ATG systems).
4. Remove the *Battery.*
5. Remove the *Secure Digital Card.*
6. Remove the *Base Cover.*
7. Remove the *ExpressCard.*
8. Remove the *Optical Drive.*
9. Remove the *Memory.*
10. Remove the *Hard Drive.*
11. Remove the *WLAN Card.*
12. Remove the *WWAN Card.*
13. Remove the *Coin Cell Battery.*
14. Remove the *Heat Sink and Processor.*
15. Remove the *Bluetooth Card.*
16. Remove the *Keyboard Trim.*
17. Remove the *Keyboard.*
18. Remove the *Modem Card.*
19. Remove the *Palm rest Assembly.*
20. Remove the *ExpressCard Cage.*
21. Remove the *System Board.*
22. Remove the *DC-in port.*
23. Remove the screws securing the display assembly to the computer.
24. Unthread the antennas, video, and camera connectors.

25. Lift up the whole bottom base while threading the cable down via the bottom base.
Installing the Display Assembly

1. Align the display assembly into its original position on the computer.
2. Route the antennas, video, and camera connectors.
3. Install the *DC in port*.
4. Install the *System Board*.
5. Install the *ExpressCard Cage*
6. Install the *Palmrest Assembly*.
7. Install the *Modem Card*.
8. Install the *Keyboard*.
9. Install the *Keyboard Trim*.
10. Install the *Bluetooth Card*.
11. Install the *Heat Sink and Processor*.
12. Install the *Coin Cell Battery*.
13. Install the *WWAN Card*.
14. Install the *WLAN Card*.
15. Install the *Hard Drive*.
16. Install the *Memory*.
17. Install the *Optical Drive*.
18. Install the *ExpressCard*.
19. Install the *Base Cover*.
20. Install the *Secure Digital (SD) Card*.
21. Install the *Battery*.
22. Install the *ATG Port Cover* (only for E6420 ATG systems).
23. Install the *ATG Handle* (only for E6420 ATG systems).
24. Follow the procedures in *After Working Inside Your Computer*. 
Display Hinges

Removing the Display Hinge Covers

1. Follow the procedures in Before Working On Your Computer.
2. Remove the ATG Handle (only for E6420 ATG systems).
3. Remove the ATG Port Cover (only for E6420 ATG systems).
4. Remove the Battery.
5. Remove the Secure Digital Card.
6. Remove the Base Cover.
7. Remove the ExpressCard.
8. Remove the Optical Drive.
9. Remove the Memory.
10. Remove the Hard Drive.
11. Remove the WLAN Card.
12. Remove the WWAN Card.
13. Remove the Coin Cell Battery.
14. Remove the Heat Sink and Processor.
15. Remove the Bluetooth Card.
16. Remove the Keyboard Trim.
17. Remove the Keyboard.
18. Remove the Modem Card.
19. Remove the Palmrest Assembly.
20. Remove the ExpressCard Cage.
21. Remove the System Board.
22. Remove the DC-in port.
23. Remove the Display Assembly.
24. Pry the display hinge cover from the left hinge.
25. Remove the display hinge cover from the left hinge.

26. Pry the display hinge cover from the right hinge.

27. Remove the display hinge cover from the right hinge.
Installing the Display Hinge Covers

1. Place the display hinges in the appropriate positions.
2. Replace the display hinge cover to the computer.
3. Install the Display Assembly.
4. Install the DC-in port.
5. Install the System Board.
6. Install the ExpressCard Cage
7. Install the Palmrest Assembly.
8. Install the Modem Card.
9. Install the Keyboard.
10. Install the Keyboard Trim.
11. Install the Bluetooth Card.
12. Install the Heat Sink and Processor.
13. Install the Coin Cell Battery.
15. Install the WLAN Card.
16. Install the Hard Drive.
17. Install the Memory.
18. Install the Optical Drive.
19. Install the ExpressCard.
20. Install the Base Cover.
21. Install the SD Card.
22. Install the Battery.
23. Install the ATG Port Cover (only for E6420 ATG systems).
24. Install the ATG Handle (only for E6420 ATG systems).
25. Follow the procedures in After Working Inside Your Computer.
Display Bezel

Removing the Display Bezel

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *Battery.*
3. Pry the left and right edges of the display bezel.

4. Work along to the top and bottom edges of the display bezel.

5. Remove the display bezel.
Installing the Display Bezel

1. Place the display bezel into the system.
2. Work along to the top and bottom edges of the display bezel.
3. Press the left and right edges of the display bezel.
4. Install the Battery.
5. Follow the procedures in After Working Inside Your Computer.
Display Panel

Removing the Display Panel

1. Follow the procedures in *Before Working On Your Computer*.
2. Remove the *Battery*.
3. Remove the *Display Bezel*.
4. Remove the screws securing the display panel to the display assembly.

5. Flip the display panel over.
6. Disconnect the Low-Voltage Differential Signaling (LVDS) cable connector tape from the display panel.

7. Disconnect the Low-Voltage Differential Signaling (LVDS) cable from the display panel.

8. Remove the display panel from the display assembly.
Installing the Display Panel

1. Align the display panel in its original position on the display assembly.
2. Connect the Low-Voltage Differential Signaling (LVDS) cable to the display panel.
3. Tighten the screws securing the display panel to the display assembly.
4. Install the *LCD Bezel*.
5. Install the *Battery*.
6. Follow the procedures in *After Working Inside Your Computer*.
Display Bracket

Removing the Display Bracket

1. Follow the procedures in *Before Working On Your Computer.*
2. Remove the *Battery.*
3. Remove the *Display Bezel.*
4. Remove the *Display Panel.*
5. Remove the screws from each side of the display panel and remove the display brackets.

Installing the Display Bracket

1. Place the display brackets and tighten the screws on either side of the display panel.
2. Install the *Display Panel.*
3. Install the *LCD Bezel.*
4. Install the *Battery.*
5. Follow the procedures in *After Working Inside Your Computer.*
Removing the Camera

1. Follow the procedures in *Before Working On Your Computer*.
2. Remove the *Battery*.
3. Remove the *Display Bezel*.
4. Remove the *Display Panel*.
5. Disconnect the camera cable from the camera.

6. Remove the captive screw securing the camera to the display assembly.
7. Remove the camera from the display assembly.

Installing the Camera

1. Place the camera module in its original position in the display assembly.
2. Tighten the screw securing the camera to the display assembly.
3. Connect the camera cable to the camera.
4. Install the Display Panel.
5. Install the Display Bezel.
6. Install the Battery.
7. Follow the procedures in After working inside your computer.
### Technical Specifications

**NOTE:** Offerings may vary by region. The following specifications are only those required by law to ship with your computer. For more information regarding the configuration of your computer, click **Start → Help and Support** and select the option to view information about your computer.

| Discrete            | NVIDIA NVS 4200M Discrete Graphics (512 MB DDR3) |

### Communications

| Network adapter     | 10/100/1000 Mbps Ethernet LAN       |
### Communications

| Wireless | internal wireless local area network (WLAN) and wireless wide area network (WWAN) |

### Ports and Connectors

| Audio | one microphone connector/stereo headphones/external speakers connector |
| Video | • one 15-pin VGA connector  
• one 19-pin HDMI connector |
| Network adapter | one RJ-45 connector |
| USB | three 4-pin USB 2.0-compliant connectors and one eSATA/USB 2.0-compliant connector |
| Memory card reader | one 5-in-1 memory card reader |

### Contactless Smart Card

| Supported Smart Cards/Technologies | ISO14443A — 106 kbps, 212 kbps, 424 kbps, and 848 kbps  
ISO14443B — 106 kbps, 212 kbps, 424 kbps, and 848 kbps  
iClass FIPS201  
NXP Desfire |

### Display

| Type | white Light Emitting Diode (WLED) display |
| Size | 14.0 inch high definition (HD) |
| Active area (X/Y) | 309.40 mm x 173.95 mm |
| Dimensions: |  
Height | 192.50 mm (7.58 inches) |
Width | 324.00 mm (12.76 inches) |
Diagonal | 355.60 mm (14.00 inches) |
Maximum resolution | 1366 x 768 pixels at 263 K colors |
Maximum Brightness | 200 nits |

**Altitude (maximum):**

- **Operating**: −15.2 m to 3,048 m (−50 ft to 10,000 ft)
- **Non-Operating**: −15.2 m to 10,668 m (−50 ft to 35,000 ft)

**Airborne contaminant level**

G1 as defined by ISA-71.04–1985
Setup Overview

System Setup allows you to:

- change the system configuration information after you add, change, or remove any hardware in your computer.
- set or change a user-selectable option such as the user password.
- read the current amount of memory or set the type of hard drive installed.

Before you use System Setup, it is recommended that you write down the System Setup screen information for future reference.

⚠️ CAUTION: Unless you are an expert computer user, do not change the settings for this program. Certain changes can cause your computer to work incorrectly.

Entering System Setup

1. Turn on (or restart) your computer.
2. When the blue DELL logo is displayed, you must watch for the F2 prompt to appear.
3. Once the F2 prompt appears, press <F2> immediately.

⚠️ NOTE: The F2 prompt indicates that the keyboard has initialized. This prompt can appear very quickly, so you must watch for it to display, and then press <F2>. If you press <F2> before you are prompted, this keystroke will be lost.

4. If you wait too long and the operating system logo appears, continue to wait until you see the Microsoft Windows desktop. Then, shut down your computer and try again.

System Setup Menu

The following sections describe the menu options for the System Setup program:
### General

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>

</table>
| CPU XD Support                    | Allows you to enable the Execute Disable mode of the processor.  
Default Setting: **Enabled** |
| Non-Admin Setup Changes           | Allows you to determine whether changes to the setup options are allowed when an Administrator Password is set. If disabled, the setup options are locked by the admin password.  
Default Setting: **Disabled** |
| Password Configuration            | Allows you to determine the minimum and maximum length of Administrator and System passwords.  
| Admin Setup Lockout               | Allows you to prevent users from entering Setup when an Administrator password is set.  
Default Setting: **Disabled** |
| Performance                       |                                                                                                                                            |
| **Option**                        | **Description**                                                                                                                           |
| Multi Core Support                | Allows you to enable or disable multi-core support for the processor. The options are:  
- All  
- 1  
- 2  
Default Setting: **All** |
| Intel SpeedStep                   | Allows you to enable or disable the Intel SpeedStep feature.  
Default Setting: **Enabled** |
| C-States Control                  | Allows you to enable or disable the additional processor sleep states.  

### Option Description

**Limit CPUID**
Allows you to limit the maximum value the processor Standard CPUID Function will support.
Default Setting: **Enable CPUID Limit**

**Intel TurboBoost**
Allows you to enable or disable the Intel TurboBoost mode of the processor.
Default Setting: **Enabled**

**HyperThread Control**
Allows you to enable or disable the HyperThreading in the processor.
Default Setting: **Enabled**

### Power Management

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>

**Battery Status Lights**

If the computer is connected to an electrical outlet, the battery light operates as follows:

- **Alternately blinking amber light and blue light** — An unauthenticated or unsupported non-Dell AC adapter is attached to your laptop.
- **Alternately blinking amber light with steady blue light** — Temporary battery failure with AC adapter present.
- **Constantly blinking amber light** — Fatal battery failure with AC adapter present.
- **Light off** — Battery in full charge mode with AC adapter present.
- **Blue light on** — Battery in charge mode with AC adapter present.
Device Status Lights

- Turns on when you turn on the computer and blinks when the computer is in a power management mode.
- Turns on when the computer reads or writes data.
- Turns on steadily or blinks to indicate battery charge status.
- Turns on when wireless networking is enabled.
Contacting Dell

NOTE: If you do not have an active Internet connection, you can find contact information on your purchase invoice, packing slip, bill, or Dell product catalog.

Dell provides several online and telephone-based support and service options. Availability varies by country and product, and some services may not be available in your area. To contact Dell for sales, technical support, or customer service issues:

2. Select your support category.
3. If you are not a U.S. customer, select your country code at the bottom of the page, or select All to see more choices.
4. Select the appropriate service or support link based on your need.
