USB

USB is a standard for connecting devices to a computer system. It is used for connecting devices such as printers, scanners, and external hard drives.

Windows NT, USB, and Windows XP.

FireWire

FireWire is a high-speed serial bus standard that is used for connecting devices to a computer system.

FireWire (MIC IN)

FireWire (MIC IN) is a FireWire port that is used for connecting a microphone to a computer system.

FireWire (p)

FireWire (p) is a FireWire port that is used for connecting a printer to a computer system.

Warning: Do not connect a FireWire device to a FireWire port that is not designed for that device. Connecting a device to the wrong port can damage the device or the computer system.

FireWire (S) is a FireWire port that is used for connecting a scanner to a computer system.

FireWire (S)

FireWire (S) is a FireWire port that is used for connecting a scanner to a computer system.

FireWire (eSATA) is a FireWire port that is used for connecting an external hard drive to a computer system.

FireWire (PS/2)

FireWire (PS/2) is a FireWire port that is used for connecting a keyboard to a computer system.

Warning: Do not connect a FireWire device to a FireWire port that is not designed for that device. Connecting a device to the wrong port can damage the device or the computer system.

FireWire (AC)

Windows 98 のインストール

Windows 98 のインストールには、いくつかの前提条件があります。

1. ハードウェア：CPUは486以上、メモリは16MB以上、ハードディスクは200MB以上が必要です。
2. ソフトウェア：Windows 98 のインストールディスクが必要です。
3. インターネット接続：最新のソフトウェアやドライバをダウンロードするために必要です。
4. 電源：電源が安定している必要があります。
5. その他：インストール中は電源を切らないようにしてください。

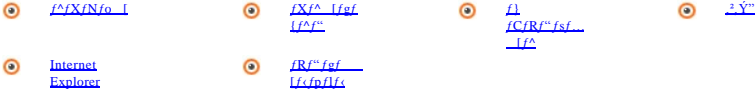

Windows 98 のインストール手順

Windows 98 のインストール手順は以下の通りです。

Windows 98 のインストールは、上記の手順に従って行えば、簡単に完了します。

Windows® fffXfNfgfbfv
